PROFILE

Digital Sciences Engineering student at ENSEEIHT driven by how beautiful and complex our world's future is changing with emerging technologies and how it affects every detail of our daily lives. Combines rigorous mathematical logic from CPGE MP with practical hardware/robotics experimentation, content management, and early business experience.

EDUCATION TIMELINE

ENSEEIHT (Toulouse INP)
2026 – Present

M.Sc. in Engineering — Sciences du Numérique *Toulouse, France*

- Admitted via CCINP competitive national entrance exam.
- Focus: Software Engineering, Algorithms, Embedded Systems & Computer Science.

CPGE Lycée Reda Slaoui
2024 – 2026

Classes Préparatoires (MP Track: Math & Physics) *Agadir, Morocco*

- Intensive two-year university-level Mathematics, Physics, and Computer Science foundation.

Lycée Al Inbiaat
2024

Baccalauréat — Sciences Mathématiques *Agadir, Morocco*

- Graduated with Highest Honors (**Mention Très Bien**).

EXPERIENCE & PROJECTS

Co-Founder & Manager
2021 – 2022

2A Decor (E-Commerce Venture) *Agadir, Morocco*

- Co-founded an online store for home decoration (wall art, vases) at age 16.
- Managed sourcing, logistics, financial returns, and digital customer channels.

Arduino & Robotics Prototyping
Personal Projects

- Built custom hardware systems including an autonomous mini-car with ultrasonic sensors (HC-SR04) for obstacle detection and emergency braking.
- Experienced in microcontroller wiring, sensor integration, and logic loops.

YouTube Content Creator (2k+ Subscribers)
Personal Venture

- Created and managed a channel reaching over 2,000 subscribers.
- Gained hands-on skills in video editing, audience engagement, and digital marketing.

PRODUCTIVITY & DESIGN

Canva · PowerPoint · Word · Excel

TECHNICAL SKILLS

Core STEM: Mathematical Modeling, Linear Algebra, Physics, Algorithm Design.

Hardware & Systems: Arduino, Microcontrollers, Sensors (HC-SR04), Embedded Logic.

LANGUAGES

Arabic: Native
French: Fluent / Academic
English: Full Professional Proficiency

SPORTS & INTERESTS

⚽ Football · 🏓 Table Tennis · 🧗 Rock Climbing · 🥾 Randonnées · 🎣 Fishing

MOBILITY GOALS

Actively seeking international mobilities in top global tech hubs (United States & China) focusing on large-scale digital systems and hardware innovation.
